Ref. SR011 Rev 23.01.2025

Policy Review Frequency: Annual

Energy Efficiency

We work closely with suppliers to reduce their energy use and invest in renewable energy projects. Driving broader awareness of the need to manage carbon emissions in every supplier facility is critical to our efforts to protect the planet.

The following are considered core violations of our policy and standards

- Underage workers or involuntary labour
- Document falsification
- Intimidation of or retaliation against workers
- Environmental and safety threats
